---

4. Timeline

Work starts after (a) signature and (b) first payment or pay-in-full clears, and (c) scope locked and enough intake assets to begin. Timelines are estimates, not guarantees.

---

5. Fees and payment

Item	Amount
Total project fee	`{PRICE}`
First payment	`{DEPOSIT}`
Balance	`{BALANCE}`

Options: (1) **Pay in full** after signing, or (2) **50%** upon signing and **50%** when Webstar notifies Client that the **build is complete** (site + marketing assets ready for final review / pre-launch). **After the second payment clears** (or if paid in full), Webstar **deploys** the website (or hands off files) and delivers final marketing files as scoped.

Card on file: Client authorizes Webstar to keep a payment method on file (Stripe or specified processor) **until the full invoice amount is paid**. Remaining balance may be charged when due; Client will be notified. Card may be removed after paid in full (or earlier only if Webstar agrees in writing).

Invoices via Stripe (or method Webstar specifies). Domain, hosting, booking SaaS, and other third-party costs are Client's unless listed as included. Work may pause if payment is overdue.

6. Revisions

Up to **two (2)** rounds of reasonable revisions across website and marketing deliverables unless otherwise agreed in writing. Extra rounds or major direction changes may be quoted separately.

7. Ownership

Upon full payment, Client owns the final website and marketing deliverables for this project, subject to third-party licenses. Webstar may showcase the work unless Client objects in writing before launch. Webstar tools/frameworks remain Webstar's; Client receives a license to use them as delivered.

8. Build complete, deploy, and handoff

Build complete = Webstar notifies Client the website build and marketing package are ready for final review / pre-launch. **Deploy / handoff** occurs after the balance is paid (or if paid in full). After handoff, hosting, renewals, content updates, printing, and security monitoring are Client's responsibility unless a separate support agreement exists.

9. Security and privacy

Webstar will take reasonable care with Client credentials and business information: no plaintext passwords in public repos; staging/auth for Webstar-hosted previews; secure channels for secrets when possible; project info used only to deliver this work; Webstar does not sell Client data. Client remains responsible for content legality and for customer data Client collects. After handoff, Client is responsible for hosting, backups, and ongoing security unless a separate support agreement exists.

10. Limitation of liability

Webstar's total liability under this Agreement is limited to fees actually paid for this project. No liability for indirect or consequential damages, or for Client hosting / third-party tools / Client content. No guarantee of rankings, leads, or business results.

11. Termination

Either party may terminate in writing for material breach uncured within **10 days**. If Client terminates for convenience after work begins, Client pays for work performed and non-refundable third-party costs.

12. Governing law

Laws of the State of Michigan.

13. Entire agreement

This Agreement and any written change orders are the entire agreement for this project. Changes must be in writing (email is enough).
